Terminal Disclaimer

Your petitioner hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-identified patent application, which would extend beyond the expiration date of the full statutory term, as presently shortened by any terminal disclaimers, of any patent which may issue from U.S. Serial No. 10/552,667. Limitations on the Disclaimer

In making the above disclaimer, LiquidMetal Technologies, Inc. does not disclaim any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term as presently shortened by any terminal disclaimer of any patent which may be granted on U.S. Serial No. 10/552,667 in the event that it later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321(a), has all claims canceled by a reexamination certificate, or is otherwise terminated prior to the expiration date of its statutory term as presently shortened by

Application No. 10/552,496

any terminal disclaimer, except for the separation of legal title as stated hereinabove. Your petitioner does not disclaim any terminal part of any patent granted on the above-identified application if no patent issues from U.S. Serial No. 10/552,667.
